

Andersen Sustainable Development Goals (SDGs)

Andersen understands and fulfills its responsibility to contribute to the achievement of the SDGs. Here we are committed to follow the program suggested by the United Nations aimed at transforming the world and making it a better place for everybody:

- Reducing poverty: Creating jobs and providing training and equal development opportunities for our employees.
- Reducing hunger: Donating to food banks.
- Improving health and well-being: Providing health insurance and benefits, and sponsoring health and wellness programs for every employee in any location.
- Improving education: Providing scholarships and funding educational programs.
- Promoting gender equality: Creating a diverse and inclusive workplace and supporting programs that empower women.
- Improving access to clean water and sanitation: Donating to organizations that work to provide these essential services to people in need.
- Reducing energy consumption and supporting sustainable energy: Using energy-efficient lighting and appliances, and supporting renewable energy projects.
- Promoting decent work and economic growth: Creating jobs and providing training and development opportunities for our employees.
- Supporting industry, innovation, and infrastructure: Developing innovative software solutions and working with our suppliers to improve their social and environmental performance.
- Reducing inequalities: Creating a diverse and inclusive workplace and supporting programs that empower all groups of people providing equal rights and opportunities.
- Creating sustainable cities and communities: Reducing our environmental impact and supporting programs that promote social and economic development in our communities.
- Promoting responsible consumption and production: Reducing our waste production and using sustainable materials and practices in our business operations.
- Taking climate action: Reducing our carbon footprint and supporting programs that promote climate mitigation and adaptation.
- Protecting life below water: Reducing our pollution of marine ecosystems.
- Protecting life on land: Reducing our deforestation impact and supporting programs that promote sustainable land use practices.
- Promoting peace, justice and strong institutions: Creating a safe and friendly work environment for our employees and complying with all applicable laws and regulations.
- Building partnerships for the SDGs: Working with our suppliers, customers, and other stakeholders to achieve the SDGs.

We believe that by taking these steps, we can help to create a better future for all people and the planet.
